

about

Motivation

Purpose, wellbeing and authenticity. Architecture is the orchestration of spatial experience for all. Design is problem solving and inclusiveness.

Personality

Empathetic, self-disciplined, hooked on lifetime learning and open to constructive criticism.

education

Above & Beyond - A Study on
Architecture and the Self
ICAR [Re]search Through Architecture

work experience

LOG Design Tutoring

March 2018 - Present
London, UK
[project-based]

— **Founder & Design Mentor**

- challenge** ▶ Architecture students struggle to interpret, plan and execute design ideas based on the feedback they receive from university tutors.
- mission** ▶ Provide additional support for students, emphasising both soft skills and hard skills.
- method** ▶ 1on1 sessions covering theory, concept design, software, technical studies, portfolio, interviews.

Freelance Design

Jan 2019 - Present
[project-based]

— **Freelance Architectural Designer**

Small design projects for private clients, acquired through open freelance platforms. Developed a refined awareness of client needs, time and budget constraints and optimised my time and work management.

Spaceagency Design

Jan - March 2018
London, UK
[full-time]

— **Architectural Designer**

- challenge** ▶ Architecture's potential to enrich human experience is still hugely underrated.
- mission** ▶ Bring the human experience in the spotlight, creating seamless and intuitive spaces.
- method** ▶ Merge innovation, aesthetics and critical thinking, bringing together architects, urban designers and graphic designers.

Cazza Constructions

Sep 2017 - Feb 2018
Dubai, UAE
[remote]

— **Concept Architectural Designer**

- challenge** ▶ Construction suffers from remarkably poor productivity compared to other sectors.
- mission** ▶ Disrupt the construction industry by providing time and cost-effective additive manufacturing alternatives to traditional construction methods.
- method** ▶ Prototype concepts aligned with the available technology and material capabilities.
